- Bath accessories
- Water heater

Sunny Beach is the biggest and the sunniest Bulgarian resort, with the longest and the widest beach strip, with hotels spread along the beach and among the dunes.

The resorts lies only 35 km north of the city of Bourgas, stretching along a beautiful semicircular bay facing east. Closed to the north by the descending ridges of the Balkan Range, thus blending sea and mountain in perfect harmony. Lying to the south is the small peninsula on which the

ancient town of Nessebar is located - an architectural and historic monument of Bulgarian and world culture. Accessibility is very good with regular boat and bus connections to the district centre of Bourgas and Varna - 95 km. Charter flights from and to the UK and Germany are operated by the Bourgas international airport during the summer season.

The resort features a varied cultural programme - Golden Orpheus International Festival of Bulgarian Pop Songs, folklore and symphony concerts, exhibitions, Miss Sunny Beach contest, etc. Short excursions both inland and abroad are organized regularly. Sunny Beach is living through a transformation that started in 2000. The importance and reputation of the resort have grown sharply, especially among Western tourists. Investments in high class accommodation have moved in parallel, with some 500 million euro being invested in Sunny Beach in the last four years. As a result the resort has cemented its top place as a tourist destination in Bulgaria. The combination of warm sea, fine sand, sunny weather and affordable prices ensure excellent prospects for the future as an increasing number of people are switching from the Spanish Costas and the French Riviera to more exotic destinations like this Bulgarian pearl.
